The ChatGPT Lawyer Explains Himself

In a cringe-inducing court hearing, a lawyer who relied on A.I. to craft a motion full of made-up case law said he "did not comprehend" that the chat bot could lead him astray.

"Translating ideas into programs"

CS is the study of how to take a problem and map it onto instructions that can be executed by a Von Neumann machine.

Dialogue with ChatGPT

"if you don't like it, you can ask it to adjust it. It's like it's a weird different way of debugging. The first versions of these systems ... you said what you wanted ... it wrote some code and that was it.

Now, you can have this back and forth dialogue where you can say, no, no, I meant this"
